# Divyalakshmi Natesan

## Software / Website Developer

Innovative and result oriented Software Developer with the passion for crafting clean and efficient code. Possessing 2.7 years of experience, seeking a challenge software engineering position in an organization that provides opportunities for professional growth as well as contributing to the organization success. Aspiring to learn new technologies with the mindset to accept changes and adapt to new environments.

> Active Listener >Multitasking >Good problem solving skills >Quick learner

**Visa status – Family visa, Doha, Qatar**

## Experience

### • React Developer

#### Self-directed Project, Qatar

Mar 2024 – May 2024

Embarked on a self-guided learning journey to explore React and React Router concepts by developing a Van Life App, Quizzical App, AIRBNB App, Tenzies game, My travel Journal App. Demonstrated dedication to self-improvement and a proactive approach to skill acquisition.

### • Website Developer

#### Self-directed Project, Qatar

Jan 2024

Developed a personal portfolio website to showcase skills, projects, and experiences. Implemented interactive elements and responsive design to enhance user experience.

### Divyalakshmi Professional Palette

### • Software Developer

#### MCCI Interconnect Solutions Pvt.Ltd Chennai, India

Mar 2012 – Aug 2013

I've played integral roles in two key projects. In the Mobile Broadband Interface Model Device Verification tool (MBIM – DVT) project, I contributed through implementation, coding and rigorous testing alongside a dedicated team. Additionally, as part of a collaborative effort, I helped migrate the MCCI Build System to support WIN8, showcasing adaptability and technical proficiency within a team environment.

### • Software Engineer

#### Softeon India Pvt.Ltd Chennai, India

Dec 2010 – Jan 2012

I played a key role as a Developer in a project involving customized report generation for client warehouse maintenance and billing. Using Crystal Clear Generator. I designed and created PDF reports, while also contributing to Excel report generation using Java. My focus on team client specification underscores my commitment to delivering tailored solutions.

## Education

- **B.Tech in Information Technology**

**Dr.Sivanthi Aditanar College of Engineering** *Thiruchendur, India*

## PROFESSIONAL DEVELOPMENT

- Completed Front End Developer course on Coursera, covering HTML5, CSS3, JavaScript, React.js, and responsive web design principles.
- Earned Responsive Web Design and JavaScript Algorithms and Data Structures certifications on freeCodeCamp.
- Developed proficiency in building interactive web applications, optimizing user interfaces, and solving complex programming challenges.
- Acquired hands-on experience in utilizing modern web technologies, data structures, and algorithms to create efficient and scalable solutions, enhancing coding skills for real-world projects.

## ACADEMIC ACHIEVEMENTS:

Achieved full marks in Mathematics in both 10th and 12th-grade public exams, demonstrating exceptional problem-solving skills.
