PERSONAL SUMMARY

Software Consultant with 4+ years of cumulative software development experience and a recent focused return to engineering. Currently delivering mobile and web solutions as a software consultant using FlutterFlow, React.js, and AWS. Skilled at building user-facing components, integrating RESTful backends, and deploying cloud-hosted solutions. Fast learner, team-oriented, and experienced in Agile/Scrum delivery.

KEY SKILLS

- **Frontend Development:** React.js, FlutterFlow, Flutter (basic)
- **Backend & APIs:** Node.js, REST API integration
- **Databases:** DynamoDB (cloud), SQLite (local persistence)
- **Cloud & Deployment:** AWS (S3, Cognito, Lambda, CloudWatch, DynamoDB, IAM, AWS SAM), GitHub Pages (portfolio hosting, basic CI/CD concepts)
- **Tools:** Git, GitHub, Postman, Docker, Visual Studio Code
- **Methodologies:** Agile / Scrum
- **Other:** HTML, CSS, SASS (CSS preprocessor), JavaScript, Bootstrap
- **Collaboration:** Agile/Scrum delivery, clear communication, teamwork with designers and product managers
- **Additional Technical Exposure:** Firebase (Auth, Firestore – basic familiarity)

PROFESSIONAL EXPERIENCE

Apr, 2025 - Present	**Software Consultant — Bytesize IT Solutions (Remote, Qatar)**
	• Contributed to the development of GiftEasy, a mobile-first app built with FlutterFlow, integrating a Node.js backend with AWS services for authentication, storage, and business data.
	• Collaborate with teams in Agile/Scrum cycles, delivering sprint-based features.
Sept, 2024 – Mar, 2025	**Project-based Developer (Pre-Consulting) — Bytesize IT Solutions (Remote, Qatar)**
	• Developed GlamProfit Pro web application with React.js (front-end) and Node.js (back-end).
	• Designed and integrated REST API endpoints for authentication and data operations; used DynamoDB for cloud storage and SQLite for local persistence.

- Deployed backend services on AWS and coordinated end-to-end testing with stakeholders.
- Developed and maintained the company's official website BSS Site (www.bytesizeitsolutions.com), built with React.js (front-end) and Node.js (back-end), deployed on AWS and integrated with DynamoDB for data management.

Jan, 2024 – Aug, 2024   **React & Modern Web Development (Self-directed Projects) — Qatar**

- Completed intensive upskilling in React.js and modern web development.
- Built multiple practice apps (Van Life App, Quizzical, Airbnb clone, Tenzies game, Travel Journal) to practice component architecture, state management, and responsive design.
- Created and deployed a personal portfolio website with responsive design, hosted on GitHub Pages to showcase projects and technical capabilities.

  Portfolio: https://divyanatchi.github.io/divyalakshmi-portfolio/

Mar, 2012 – Aug, 2013   **Software Developer — MCCI Interconnect Solutions Pvt. Ltd., Chennai, India**

- Contributed to MBIM DVT project: implementation, testing, and build-system migration for WIN8.

Dec, 2010 – Jan, 2012   **Software Engineer — Softeon India Pvt. Ltd., Chennai, India**

- Developed customized PDF and Excel reporting modules for warehouse billing/maintenance projects using Java and reporting tools.

EDUCATION

B.Tech, Information Technology — Dr. Sivanthi Aditanar College of Engineering, Thiruchendur, India

- Achieved full marks in Mathematics in 10th & 12th-grade exams, demonstrating strong analytical and problem-solving skills

PROFESSIONAL DEVELOPMENT & CERTIFICATIONS

- ChatGPT Prompt Engineering for Developers — DeepLearning.AI (Sep, 2025)
- Dart & Flutter: Zero to Mastery (Clean Architecture) — Udemy (May, 2025)
- Front End Developer Course — Coursera (HTML5, CSS3, JavaScript, React.js) (Feb, 2024)
- Responsive Web Design & JavaScript Algorithms and Data Structures — freeCodeCamp (Nov, 2023)
